아이엘츠 스피킹 파트1

Examiner: Do you enjoy using technology?

Stephan: Well ... I wouldn't call myself a **techie** or a **computer buff** but I enjoy using computers ... I'd like to find out more about how they work ... when my **computer crashes** I never know what to do.

Examiner: Do you use the Internet for your studies?

Sophie: Yes ... I'd be lost without it ... I do lots of **video conferencing** to practise speaking and **social media** like Facebook is a good way to meet up with other students ... and I **download podcasts** that teach English vocabulary and grammar.

Examiner: Do you have your own computer?

Tania: Yes ... I have a Macbook Pro ... I use it all the time ... for **word processing** ... **browsing websites** and catching up with TV programmes I've missed.

## 아이엘츠 스피킹 파트2

Describe an item of technology you have that is very important. You should say:

what the technology is

when you got it

how often you use it

and say how different your daily life would be without it.

Mattie: I don't have many **gadgets** ... just a computer ... a laptop and my mobile phone ... but I'll talk about my computer as it's so useful ... it's funny really ... 2 years ago I was still learning to use computers ... how to use email ... **send attachments** how to **access websites** ... then I decided to do a **digital editing** course for video and photography ... and so I bought the laptop when I started the course ... my husband had a **desktop PC** but it was very slow so I decided **to upgrade** to a powerful one because we do a lot of video editing on the course ... it's a **high-spec** laptop ... very fast ... the latest **operating system** ... it **boots up** really quickly and it's fun to use so it makes working a pleasure ... I've become a competent computer user now ... if I didn't have it I daresay I'd have to spend more time at college using their computers ... but on the positive side I suppose I'd read a lot more if I didn't have it ... I probably waste a lot of time **surfing the web** ... but hopefully I won't have to be without it ...

아이엘츠 스피킹 파트3

Examiner: What do you think are the important things people need to learn when they start using computers?

Alejandro: Well ... there are things like how to use the Internet ... how **to enter a web address** ... how **to navigate websites** ... that kind of thing but it's also important to know how **to back up** your files in case your computer crashes ... and all about **Internet security**.

Examiner: What kind of technological developments have made the biggest impact on our lives?

Faydene: In my lifetime it has to be the Internet of course but I also think wifi has made a huge difference to how we interact with the Internet ... **wireless networks** at home and public **wifi hotspots** mean we can **go online** easily ... **access our mail** ... log into our work intranet and basically be connected wherever we are.

Examiner: Do computers make it much easier to study?

Jane: Definitely yes ... researching information is much easier with the Internet .. you can **bookmark webpages** for future reference and writing essays is much easier ... being able **to cut and paste** sections of text means you can experiment with organisation ... so yes ... compared to years ago when you had a pile of books on your desk and a pen and paper ... it's now much easier.

## Definitions
